**THE McCAIN  
ECONOMIC PLAN:**

SEND JOBS OVERSEAS

PUT WALL STREET FIRST

IGNORE MAIN STREET

# REPUBLICAN JOHN McCAIN: An Economic Disaster for the Middle Class

## Exporting Our Jobs

John McCain will send even more jobs overseas. He says he'll sign a free trade deal with any country. As a senator, he voted for several bad trade deals.<sup>1</sup>

## Breaking the Rules

McCain spent years helping Wall Street fat cats break the rules. In 1999, he fought to roll back the regulations that kept Wall Street in check. He says, "I think the deregulation was probably helpful to the growth of our economy."<sup>2</sup>

## Putting Wall Street Before Main Street

McCain doesn't get it. He wants to privatize Social Security so Wall Street can take more of our hard-earned money. And he's proposed a new tax on our health care benefits that could cost working families thousands of dollars.<sup>3</sup>
